

- **Domestic Concerns**
Fear of communism, Soviets, another depression, Civil Rights
- **Rebuilding Urban America**
Economy starts expanding, production goes up, interstate system (bad for Railroads), people bought cars, public housing made available, white people leave the cities
- **Space Race**
Sputnik is launched - successfully orbits the earth, fear bombing increases, Eisenhower knew they couldn't bomb with it, fear that too much time was spent on consumer goods instead of military technology, Spy planes , NASA is created
- **John Foster Dulles**
Had a lot of government experience, assisted at the Treaty of Versailles, thought containment was ineffective & expensive, thought we should start freeing countries from Soviet control, emphasized weapons & nuclear technology, kind of made Cold War worse - arms race heats up
- **Eisenhower and Krushchev**
Krushchev new Soviet leader after Stalin, anti-West, they competed to see who was best a lot, culture/Kitchen debate (Nixon & Krushchev, says Soviets have the same technology), new modern kitchen appliances, Soviet focus on nuclear weaponry
- **CIA vs. Anti-U.S. Government**
CIA starts taking out other governments who are against "US Interests" (Iran, Guatemala)
